PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4+ years of experience building, deploying, and maintaining production web applications and backend services. Strong expertise in Node.js, TypeScript, React.js, Next.js, PostgreSQL, MongoDB, Redis, and AWS. Experienced in designing REST APIs, developing multi-tenant e-commerce platforms, integrating Shopify and payment gateways, and implementing webhook-driven and asynchronous workflows using Redis and AWS SQS. Skilled in database optimization, third-party integrations, Docker, CI/CD, code reviews, and production debugging, with a focus on scalable, secure, and maintainable software.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Backend: Node.js, Express.js, Socket.io, Swagger, Web Socket, WebRTC

Frontend: React.js, Next.js, SWR, Redux, Zustand, Tailwind CSS, Ant Design, Shadcn, HTML, CSS, Zod

Databases & Caching: PostgreSQL, MongoDB, Redis

DevOps & Cloud: AWS (EC2, S3, IAM, SQS, Load Balancer, Lambda, CloudFront, API Gateway), Docker, CI/CD Pipelines, GitHub Actions, Nginx, PM2, Bash

Architecture & Testing: Microservices, Multi-Tenant Architecture, Event-Driven Workflows, Microfrontend, REST APIs, Authentication, Jest, Supertest

Tools: Postman, Git, GitHub, npm, yarn, vite, vs code, Jira, slack

Integrations: OAuth 2.0, Webhooks, Stripe, Razorpay, Shopify Admin API / GraphQL

PROFESSIONAL EXPERIENCE

NADSOFT IT Solution, Software Developer — 11/2025 – 08/2026 | Pune

- **Optimized Sales Reports API performance**, reducing response time from 3–4 seconds to approximately 1–1.5 seconds (up to 67% faster) through PostgreSQL query optimization, more efficient filtering of complex datasets, and response data optimization.
- **Developed a Shopify integration** using OAuth 2.0, GraphQL, webhooks, and AWS SQS to process webhook events asynchronously and synchronize order data across multiple stores.
- **Integrated Stripe and Dejavoo payment gateways**, implementing payment workflows with a focus on secure API communication and transaction integrity.
- **Enhanced sales reporting and subscription workflows** with subscription-based filters, partner/affiliate reporting, and date- and timezone-aware filtering.
- **Contributed to production reliability and code quality** through code reviews, debugging, QA fixes, production issue investigation, deployments, and cross-module improvements.

Techsunset, Full Stack Web Developer (MERN Stack) — 04/2022 – 10/2025 | Bengaluru

- Developed and deployed full-stack web application features using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Built and maintained REST APIs, backend services, database operations, and frontend modules.
- Participated in code reviews, testing, debugging, deployments, and production issue resolution.

PROJECTS

Podar Education, Education platform
Developed authentication APIs, online admission forms, and student dashboards for an education platform supporting school operations and franchise programs. Integrated payment gateway functionality and automated backend processes.
Tech Stack: React.js, Next.js, Node.js, Redis, Socket.io, Express.js, MongoDB, AWS, Docker

FlowerAura, E-commerce and gifting platform
Implemented delivery scheduling and order-tracking features, developed product catalog and checkout functionality, and built dashboards for store/franchise operations and customer support.
Tech Stack: React.js, Next.js, Node.js, Redis, Socket.io, Express.js, MongoDB, AWS, Docker

EDUCATION

Bachelor of Engineering (Mechanical) 2016 – 2020 | Loni
Pravara Rural Engineering College | Pune University | Grade A (First Class)

CERTIFICATIONS

MERN Stack Web Development | WAP Institute (Apr 2020 - Jan 2021)

ACHIEVEMENTS & PUBLICATIONS

tsnode-app-cli
https://www.npmjs.com/package/tsnode-app-cli
Developed and published an open-source npm package, a CLI tool that automates Express.js + TypeScript project scaffolding. Enables developers to generate production-ready backend setups following MVC architecture, complete with environment files and boilerplate configurations.

ADDITIONAL INFORMATION

- **Languages**: English, Hindi, Marathi
- **Interests**: Development, Product Design, System Design, Cloud Services, Distributed systems, AI
