Professional Summary

Full Stack Software Engineer with 4+ years of professional experience building and maintaining production-grade web applications, backend services, and cloud-based systems. Strong hands-on expertise in Node.js, TypeScript, JavaScript, React.js, Next.js, PostgreSQL, MongoDB, Redis, Docker, AWS, REST APIs, and microservices. Experienced in multi-tenant e-commerce platforms, Shopify integrations, payment gateway integrations, asynchronous workflows, webhooks, OAuth, third-party APIs, reporting systems, database optimization, code reviews, and production deployments. Agile-driven developer skilled in Scrum practices, committed to clean coding standards, reliable systems, and ongoing professional growth.

Technical Skills

- **Languages:** JavaScript, TypeScript, SQL
- **Frontend:** React.js, Next.js, SWR, Redux, Tailwind CSS, Ant Design, Shadcn, HTML, CSS, Zod
- **Backend:** Node.js, Express.js, Socket.io, Swagger, Web Socket
- **Databases & Caching:** PostgreSQL, MongoDB, Redis
- **DevOps & Cloud:** AWS (EC2, S3, Route 53, Load Balancer, Lambda, CloudFront, API Gateway), Docker, CI/CD Pipelines
- **Architecture & Testing:** Microservices, Multi-Tenant Architecture, Event-Driven Workflows, Microfrontend, REST APIs, Authentication, Jest, Supertest
- **Tools:** Postman, Git, GitHub, Jira, npm, Babel, vs code, slack

Education

Bachelor of Engineering (Mechanical) | Pravara Rural Engineering College, Loni | **Pune University**
2016 – 2020 | Grade A (First Class)

Certifications

MERN Stack Web Development | Apr 2020 - Jan 2021 | WAP Institute

Achievements & Publications

tsnode-app-cli | <https://www.npmjs.com/package/tsnode-app-cli>

Developed and published an open-source **npm package**, a CLI tool that automates **Express.js + TypeScript** project scaffolding. Enables developers to generate **production-ready backend setups** following **MVC architecture**, complete with environment files and boilerplate configurations.

Professional Experience

Software Developer | NADSOFT IT Solution | Pune | Dec 1, 2025 – Aug 7, 2026

- Worked on **Deposyt**, a multi-tenant e-commerce platform built around Medusa.js, Node.js, React, Next.js, PostgreSQL, Redis, AWS, and other clud technologies.
- Designed and implemented a Shopify integration covering OAuth2, order/customer/product synchronization, webhooks, access-token handling, and multi-tenant store workflows.
- Integrated and maintained payment gateway workflows including Stripe, Dejavoo with attention to secure API communication and transaction flows.
- Developed and optimized Sales and reporting functionality, including subscription, partner/affiliate, date, and timezone-aware filters and PostgreSQL query updates.
- Worked on asynchronous processing using Redis and AWS SQS, including enqueue/dequeue workflows for long-running or background operations.
- Built and maintained backend APIs, database logic, integrations, admin interfaces, and Next.js storefront functionality across the e-commerce platform.
- Performed code reviews, debugging, QA fixes, production issue investigation, deployments, and cross-module changes while maintaining reusable and maintainable code.

Full Stack Web Developer (MERN Stack) | Techsunset | Bengaluru | Apr 6, 2022 – Oct 1, 2025

Contributed to developing and deploying multiple real-world web applications that handled 100k+ users and APIs in a team environment. Focused on reliability, scalability, and clean architecture in microservices setups.

Projects

- **Podar Education** | <https://www.podareducation.org>

An educational network managing school operations and franchise programs digitally.

My Contribution:

- Developed authentication APIs, online admission forms, and student dashboards.
- Integrated payment gateway and automated backend processes.
- Contributed to website modules improving engagement and accessibility.

Tech Stack: React.js, Next.js, Node.js, Redis, Socket.io, Express.js, MongoDB, AWS, Docker

- **FlowerAura** | <https://www.floweraura.com>

Online gifting platform for flowers, cakes, and personalized gifts

My Contribution:

- Integrated delivery scheduling and order tracking features.
- Built product catalog and secure checkout flows.
- Developed store/franchise dashboards and customer support tools.

Tech Stack: React.js, Next.js, Node.js, Redis, Socket.io, Express.js, MongoDB, AWS, Docker

Additional Information

- Languages: English, Hindi, Marathi
- Interests: Development, Product Design, System Design, Cloud Services
- Availability: **Immediate**
